PROFILE

BCA graduate pursuing an MCA (2026-2028), focused on building web applications with React, Node.js, Express and MongoDB. Hands-on work includes CRUD APIs, database integration and React forms, supported by a foundation in Linux, networking and web security labs. Seeking MERN internship and junior developer opportunities.

TECHNICAL SKILLS

Frontend: React, JavaScript, HTML, CSS, Tailwind CSS

Backend & data: Node.js, Express, REST APIs, MongoDB, Mongoose, SQL fundamentals

Tools & foundations: Git, GitHub, Postman, Linux, networking, OWASP Top 10 labs

SELECTED PROJECTS

MERN Notes App | React, Node.js, Express, MongoDB

Built create, read, edit and delete flows with a React frontend and Express API. Used Mongoose to persist note titles and descriptions, with required-field checks and API error responses. Core CRUD is functional; registration and authentication are in development.

Bajrang Travels | Next.js, TypeScript, Tailwind CSS, Supabase

Built a travel and digital service website with service listings, appointment enquiries and a separate admin content interface. Connected database-backed content and enquiries through Supabase queries.

User Management API | Node.js, Express, Mongoose, bcrypt

Built a registration and login learning project. Practised storing user records in MongoDB and hashing passwords with bcrypt. Public source and a hosted demo are not yet linked.

EDUCATION

Master of Computer Applications (MCA) | 2026-2028, in progress

Haria College / JVIMS, Jamnagar, Gujarat

Bachelor of Computer Applications (BCA) | Completed 2026

Saurashtra University, Rajkot, Gujarat

SECURITY FOUNDATION

Hands-on practice with SQL injection, reflected and stored XSS, and OWASP training labs. Interested in applying security fundamentals to input validation, authentication and access control in MERN applications.
